

SASE HYDRATROWEL

POLISHING SYSTEM

Power Trowel Diamond Tooling for Honing and Polishing Concrete

Polish up to 10,000 ft² per day or more with the most simple, easy-to-use power trowel diamond tooling system in the world, the SASE HydraTrowel Polishing System.

The SASE HydraTrowel Polishing System is a complete range of diamond tooling, formulated specifically for use with a ride-on power trowel along with tool holder pans that utilize the SASE cross complete for quick and easy tool changes without the need to remove the pans from the power trowel.

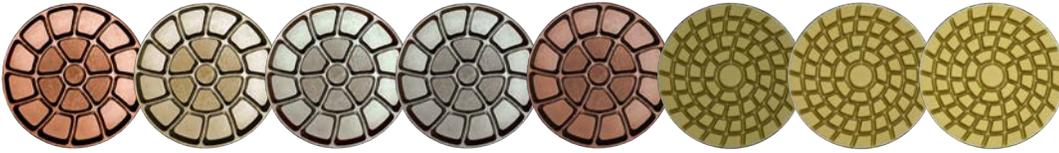

FEATURES

- A diamond tooling system made specifically for use with power trowel equipment
- Polish up to 10,000 ft² or more per day
- Simple, easy-to-use power trowel system making tooling changes extremely quick
- Hybrid and resin diamond tooling allowing for salt and pepper to cream finish polishing
- PT series formulated to be ran on damp floors with high efficiency, saving precious time waiting for concrete to fully dry

SASE HYDRATROWEL DIAMOND TOOLING

The SASE HydraTrowel diamond tooling line consists of the SASE Wet C-Bond Hybrid and PT Resin series.

Item #	Product	Description
